REALTOR® Safety Day

Friday
Sept. 10, 2021
10 a.m.- 1 p.m.

Hundreds of millions of dollars have been lost to phony wire transfers overseas, many initiated through real estate transactions. Ransomware has crippled companies and entire cities that have had their systems hacked and held hostage. And as the shooting this month of real estate professionals in Huntington Beach show (including the murder of a home inspector), REALTORS® are among the most vulnerable professionals in the field. On Sept. 10, RE Events Productions will live stream its REALTOR® Safety Day presentation to associations across California, featuring cyber security and personal safety experts, and more! To include your association in this valuable and informative live streamed event, fill out the information below, or contact CEO Mark Epstein: Mark@reevents.live

\$200 early bird price until 8/31/2021

\$250 beginning 9/1/2021

Name: _____

Association Name: _____

Address: _____
